With over 25 years experience, Arrowhead Deck and Concrete LLC has become a leader in concrete pour, polish, pool deck resurfacing, coatings, interior floors and waterproofing.

We service commercial, residential and industrial projects. The system we recommend may vary depending on your specific project. Arrowhead Deck and Concrete LLC offers solutions for heavy mineralization in the soil (efflorescence), heavy traffic, proper water drainage, salt water pools, slip and fade resistance, weight bearing, levelling, and cracking.

Designed to fit your style and your budget, each unique slab and surface can be customized with your choice of colors, patterns, designs, and textures. We use the best materials available to custom craft beautiful and durable surfaces at competitive prices. Our commitment to your satisfaction is evident in our high standards of quality, professionalism, and fast delivery.

## Concrete Coatings/ Deck Resurfacing

- Dramatic makeovers
- Hide unsightly cracks
- Create continuity by replacing clashing styles
- We use the highest quality 100% acrylic resins available
- Our concrete coatings are relatively thin and will not create a trip hazard
- Acrylic, epoxy, and stained concrete for both interior and exterior applications
- Our acrylic systems offer heat reduction in the summer up to 46%
- We protect your investment with the industry's best clear coat; offering fade resistance, stain resistance, ease of cleanability and practically maintenance free
- Our coatings are fully customizable, enhancing the property and increasing values
- Efflorescence blocker is included to protect against lifting and chipping
- Slip resistance is included to protect from falls
- We can fix issues of improper water flow and low areas with several drainage and float options
- All coating styles can be installed on top of waterproofing material for walk decks, stairs, or balconies
- We can replace waterline tiles, cap tiles, depth markers, caulking, deck drain, or install ramps

## Concrete Pours

- Custom slabs both structural and decorative
- Accessibility ramps, walkways, driveways, extensions
- Choose PSI, reinforcements, thickness, color, finish
- Add stairs, handrails, additional functionality

## Concrete Polishing

- Impermeable to oil, water or other elements
- Your choice of color, sheen, aggregate exposure
- Durable and Low maintenance
- Scratch resistant, suitable for heavy machinery

## Levels of Exposed Aggregate

## Shine Increases with Grit

# Acrylic Coatings

## Standard Lace

Lace is a texture offered in a solid color of your choice, also known as "Knock Down" texture. This is the most economical option and is common for commercial applications. The Flagstone Lace style will hide cracks in the pattern, while maintaining the texture and solid color of standard lace.

Dramatic makeovers □ Hide unsightly cracks □ Reduce the surface temperature up to 46% □ Improve water drainage and flow □ Protect from heavy mineralization □ Create continuity by replacing clashing styles □ Efflorescence blocker included to protect against lifting and chipping □ Slip-resistance and fade-resistance □ Replace waterline tiles, cap tiles, depth markers, caulking, deck drain, and/or install ramps □ Full customization of color, style and design

Flagstone Lace Example

## Stone Texture

Our Stone Texture is custom colored on-site with our palette of stains. This offers a distinctive look with a hand trowelled texture which enhances the beauty of the environment. Available for interior and exterior applications. \* Always pick Decorative Stain colors from contractor sample boards

Tile Border Example

## Patterned Styles (Flagstone, Tile, Geometric, etc)

Choose a custom color stone texture, then add a pattern. Flagstone styles are popular for hiding cracks in the concrete surface. Geometric offers a modern touch, or create your own pattern! \* Always pick Decorative Stain colors from contractor sample boards

## Pool Deck Lace Colors

## Decorative Stain

\* Indicates this color is available in Heat Reflective Reflecto Seal

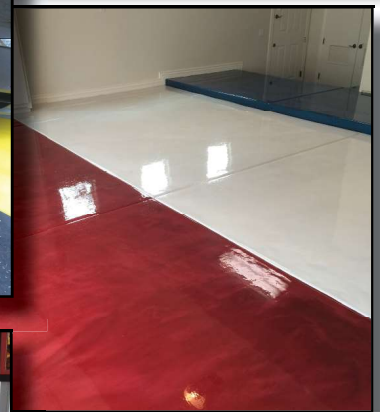

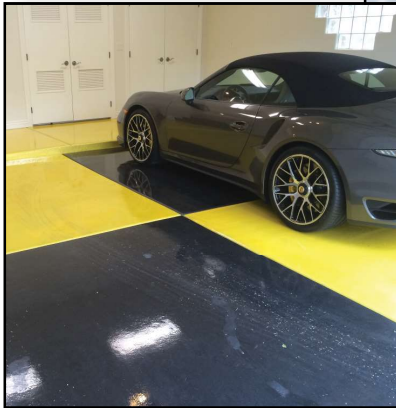

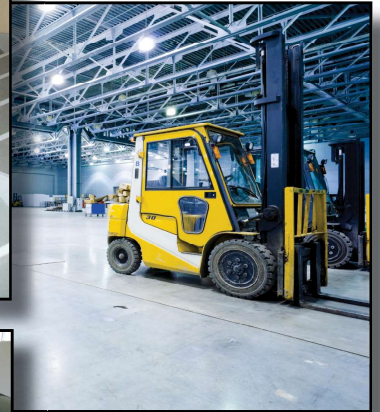

# Epoxy Surfaces

Epoxy is durable, low maintenance, and suitable for heavy traffic. Our epoxy floors are finished with a two component, UV stable, chemical resistant polyurethane top coat. We offer various industrial epoxy colors and styles, and have the ability to embed logos, or create a completely custom floor. High gloss epoxy floors are durable, sealed and easy to clean, and give strength to concrete. Our epoxy is suitable for office, showroom, foodservice, warehouse, industrial, manufacturing, medical, transportation, and garage spaces.

## Standard Solid Colors

## Metallics

## Granitex
